

A. Basic name and brief bio with a picture of me (or me and others). For better layout and readability, having the picture and text aligned horizontally will be nice.

B. Interests page - Have 2-3 interests to show off the sticky nav bar. (Off the top of my head, Arcane, a video game, a song/album, a place on campus (music building(?))).

C. Short page linking my itch.io from a Jeremy Bond class I took 2 years ago.

All: Sticky nav bar, copyright, consistent styling and a nice color scheme. (Potential color pallets could be dark purple/light purple, grey shades, navy blue/gold.)
